## Well Registration Application for Grandfathered Exempt Wells

Registration of an exempt well that is operational and existed prior to December 22, 2008 is voluntary. Registration of an exempt well will assist the District in the protection of our groundwater.

A well that is used solely for domestic purposes or for providing water for livestock, poultry or personal recreational use that is drilled, completed, or equipped so that it is incapable of producing more than 28,800 gallons (20 gpm) of groundwater per day is an exempt well.

The District will not require meters on exempt wells. The District will not enter private property to complete the registration process of exempt wells without property owner consent.

| WELL SITE INFORMATION                                      |  |
