RE: Summary of Relevant Comments, Suggested Revisions, and Supporting Materials related to the Desired Future Conditions of Groundwater Management Area 15

Representatives of Groundwater Management Area 15,

On behalf of the Calhoun County Groundwater Conservation District, I submit the following information to you for consideration in accordance with Section 36.108(d-2) of the Water Code. Section 36.108(d-2) of the Water Code specifies that "[a]fter the close of the public comment period, the district shall compile and submit to the district representatives for consideration at the next joint planning meeting: (1) a summary of relevant comments received; (2) any suggested revisions to the proposed desired future conditions, and the basis for those revisions; and (3) any supporting materials, including new or revised groundwater availability model run results."

On April 7, 2026, the District received the proposed desired future conditions of Groundwater Management Area 15.

On May 13, 2026, the public notice for the public hearing to receive public comment and consider possible action on the proposed desired future conditions of Groundwater Management Area 15 was published in a newspaper with general circulation within the district. On May 14, 2026, the public notice was posted at the District's office, and with the County Clerk's Office. On May 15, 2026, the public notice was posted on the District's website.

On July 27, 2026, the Board of Directors held a public hearing at 312 W. Live Oak, Port Lavaca, Calhoun County, Texas, to receive public comment on the proposed desired future conditions of Groundwater Management Area 15.

On July 27, 2026, the Board of Directors passed a motion to close the public hearing and public comment period regarding the proposed desired future conditions of Groundwater Management Area 15.

During the public comment period, the District did not receive relevant comments regarding the proposed desired future conditions of Groundwater Management Area 15. The District did not suggest revisions to the proposed desired future conditions nor develop revised groundwater availability model run results.

Regards,

Tim Andruss

Re: Public Comment Period summary for the Coastal Bend Groundwater Conservation District regarding Desired Future Conditions proposed for adoption by GMA 15 on March 12, 2026.

GMA 15 Representatives,

The purpose of this letter is to provide GMA 15 with all information related to public comments received during the CBGCD Public Comment Period which began on April 7, 2026, when the GMA 15 Chairman distributed the Desired Future Conditions that were proposed for adoption on March 12, 2026

Coastal Bend GCD made a copy of the proposed desired future conditions and the supporting materials available in its office and on its website during the public comment period.

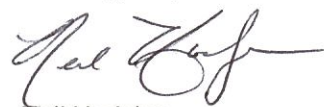

On July 12, 2026, CBGCD completed the process of posting notice for the Public Hearing for the proposed DFCs that was to be held on July 16, 2026.

On July 4, 2026, the notice of hearing was published in the Wharton Leader Journal.

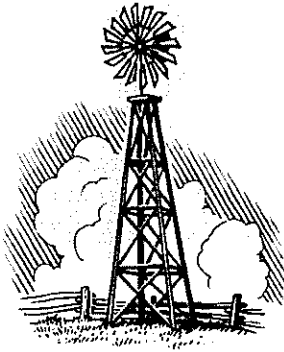

On July 16, 2026, CBGCD held the Public Hearing on the Desired Future Conditions proposed for adoption by GMA 15 which provided the opportunity for the public to make oral or written comments. CBGCD Directors also passed a motion to leave the public comment period open through August 31, 2026.

As of today, the Coastal Bend GCD has not received any comments regarding the proposed DFCs, therefore CBGCD does not suggest revisions to the proposed desired future conditions.

Best Regards,

Neil Hudgins

Re: Public Comment Period summary for the Coastal Plains Groundwater Conservation District regarding Desired Future Conditions proposed for adoption by GMA 15 on March 12, 2026.

GMA 15 Representatives,

The purpose of this letter is to provide GMA 15 with all information related to public comments received during the CBGCD Public Comment Period which began on April 7, 2026, when the GMA 15 Chairman distributed the Desired Future Conditions that were proposed for adoption on March 12, 2026

Coastal Plains GCD made a copy of the proposed desired future conditions and the supporting materials available in its office and on its website during the public comment period.

On August 7, 2026, CPGCD completed the process of posting notice of the public Board Meeting which included the proposed DFCs that was to be held on August 13th, 2026.

On July 21st, 2026, the notice of hearing was posted at the Matagorda County Courthouse

On July 26th, 2026, the notice of hearing was published in the Bay City Tribune.

On August 13th, 2026, CPGCD held the Public Hearing on the Desired Future Conditions proposed for adoption by GMA 15 which provided the opportunity for the public to make oral or written comments. CPGCD Directors also passed a motion to leave the public comment period open through August 31, 2026

As of today, the Coastal Plains GCD has not received any comments regarding the proposed DFCs, therefore CPGCD does not suggest revisions to the proposed desired future conditions.

RE: Summary of Desired Future Conditions Hearing Comments

Dear Mr. Andruss,

The Colorado County Groundwater Conservation District (CCGCD) held a Desired Future Conditions (DFC) Hearing on July 15, 2026. No guests or constituents attended the Hearing. The public comment period regarding the proposed DFC was held open by the CCGCD for at least 90 days and closed on August 31, 2026. Notice was made 30 days in advance by posting at the CCGCD Office, Colorado County Clerk's Office, and the Colorado County Citizen.

No comments were received in writing or at the Hearing.

One verbal inquiry was made by Charles Rankin of 630 Milam Street Columbus, Texas in regard to contacting the manager of Calhoun Groundwater District.

One inquiry was made by Joel and Tarel Piefer of 1475 Oakridge Road Weimar, Texas in regard to contacting the manager of Coastal Plains Groundwater District.

Both inquiries were pertaining to Calhoun and Matagorda Counties groundwater management.

Regards,

Aaron Weishuhn

From: Evergreen Underground Water Conservation District

Date: September 1, 2026

Subject: Summary of Comments Regarding Proposed Desired Future Conditions within Karnes County within Groundwater Management Area 15

The Evergreen Underground Water Conservation District (EUWCD) is required under Section 36.108(d-2) of the Texas Water Code to submit to Groundwater Management Area 13 (GMA 15) a summary of the comments it received during the public comment period for the proposed desired future conditions (DFCs) that are relevant to the EUWCD. The EUWCD 's public comment period ended on August 31, 2026. After proper notice was posted and published pursuant to Sections 36.063 and 36.108(d-2) of the Texas Water Code, a public hearing was also held on June 25, 2026 to receive public comment.

The EUWCD received no verbal comments during the public hearing held June 26, 2026 and received no written comments.

The District has no recommendations for modification of the proposed Desired Future Conditions for Karnes County within GMA 15.

Re: Summary of Relevant Comments, Suggested Revisions, and Supporting Materials related to the Desired Future Conditions of Groundwater Management Area 15

Representatives of Groundwater Management Area 15

On behalf of the Goliad County Groundwater Conservation District, I submit the following information to you for consideration in accordance with Section 36.108(d-2) of the Water Code. Section 36.108(d-2) of the Water Code specifies that "[a]fter the close of the public comment period, the district shall compile and submit to the district representatives for consideration at the next joint planning meeting: (1) a summary of relevant comments received; (2) any suggested revisions to the proposed desired future conditions, and the basis for those revisions; and (3) any supporting materials, including new or revised groundwater availability model run results."

On April 7, 2026, the District received the proposed desired future conditions of Groundwater Management Area 15.

On June 25, 2026, the public notice for the public hearing to receive public comment and consider possible action on the proposed desired future conditions of Groundwater Management Area 15 was published in a newspaper with general circulation within the district. On June 18, 2026, the public notice was posted at the District's office, and with the County Clerk's Office. On June 18, 2026, the public notice was posted on the District's website.

On July 20, 2026, the Board of Directors held a public hearing at 118 South Market Street, Goliad, Texas, to receive public comment on the proposed desired future conditions of Groundwater Management Area 15.

On July 20, 2026, the Board of Directors passed a motion to close the public hearing and public comment period regarding the proposed desired future conditions of Groundwater Management Area 15.

During the public comment period, the District did not receive relevant comments regarding the proposed desired future conditions of Groundwater Management Area 15. The District did not suggest revisions to the proposed desired future conditions nor develop revised groundwater availability model run results.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michelle Shelton".

RE: Summary of Relevant Comments, Suggested Revisions, and Supporting Materials related to the Desired Future Conditions of Groundwater Management Area 15

Representatives of Groundwater Management Area 15,

On behalf of the Refugio Groundwater Conservation District, I submit the following information to you for consideration in accordance with Section 36.108(d-2) of the Water Code. Section 36.108(d-2) of the Water Code specifies that "[a]fter the close of the public comment period, the district shall compile and submit to the district representatives for consideration at the next joint planning meeting: (1) a summary of relevant comments received; (2) any suggested revisions to the proposed desired future conditions, and the basis for those revisions; and (3) any supporting materials, including new or revised groundwater availability model run results."

On April 7, 2026, the District received the proposed desired future conditions of Groundwater Management Area 15.

On May 13, 2026, the public notice for the public hearing to receive public comment and consider possible action on the proposed desired future conditions of Groundwater Management Area 15 was published in a newspaper with general circulation within the district. On May 14, 2026, the public notice was posted at the District's office, and with the County Clerk's Office. On May 15, 2026, the public notice was posted on the District's website.

On July 20, 2026, the Board of Directors held a public hearing at the First Baptist Church of Woodsboro Fellowship Hall, 309 Johnson St., Woodsboro, Texas, to receive public comment on the proposed desired future conditions of Groundwater Management Area 15.

On July 20, 2026, the Board of Directors passed a motion to close the public hearing and public comment period regarding the proposed desired future conditions of Groundwater Management Area 15.

During the public comment period, the District received relevant comments and questions from Ms. Jewel Buchanan regarding the proposed desired future conditions of Groundwater Management Area 15 and the impact of areas outside of a groundwater conservation district within the groundwater management area.

The District did not suggest revisions to the proposed desired future conditions nor develop revised groundwater availability model run results.

Comments on Board Agenda Item No. 7

Good morning, Chairman and Directors.

Sean Stibich, and I serve as Executive Director of the Port of Victoria. I appreciate the opportunity to comment on this item.

7. Consideration of and possible action on matters related to groundwater resource planning, including Joint Planning of Groundwater Management Area 15, regional water planning, and proposed Desired Future Conditions (DFCs)
 - a. Public hearing regarding the proposed desired future conditions (DFCs) of Groundwater Management Area 15

I have two questions about the proposed DFCs:

1. First, how did the Board evaluate GMA 15's Desired Future Conditions for Victoria County with the District's 2026 proposed rule revisions you are considering today under Item No. 8? I understand that the proposed DFC is for 5 feet of drawdown in the year 2080 across the entire Gulf Coast Aquifer System, which includes four different subsurface units (Chicot Aquifer, Evangeline Aquifer, Burkeville Confining Unit, and Jasper Aquifer).
2. Second, and similarly, how does the Board reconcile the projected shortfall in water supply for manufacturing and industrial purposes—noted in the GMA planning process—with the Board's proposed rulemaking restricting access to deep-saline water supplies?
